Biography.

Since Edu comelles starts his fine arts studies in High School he is really involved in the process of production of engraving proposals. At the university he gets involved in the engraving department working especially in silkprint and monoprints. In 2006 he gets the scholarship to travel to Stockholm as an erasmus exchange student. There he will work mainly in big projects involving engraving and silkprint. After a few months of intense work, he quit the engraving workshop at Stockholm and starts a new path completely different.

In Sweden, Edu Comelles starts to develop a project involving sound. He starts to work with different sound software applications trying to build a new perspective over his own work. The sound facette it's called Mensa as a nickname or project name.

After many months on sound experimentation, Edu Comelles pops up with the project called Talaies Sonores (sound overview) a mixture between, sound instalation, landart and sound production. After the good fitback of the project Edu Comelles (as mensa) gets enroled in the Störung collective, settled in Barcelona. This collective/label it focuses the interest on experimental electronic music and the project of Comelles fits perfectly on that field.

Now Edu Comelles (or mensa) focuses his efforts in looking after different places were to play, old abandoned churches, ruined castles, etc...And aswell is looking for financial support to develop properly Talaies Sonores Project.
